I am glad to dedicate this book to : Gyula Keszthelyi

I am glad if I can write neatly.

I am glad if I can write neatly.

I am glad if

I can write

with my left hand.

I am glad if

I can write
with my left hand.

And of course I am glad if I can write one sentence in 1 line too.

I
am
glad
if
I
can
write
one
sentence
in
12
lines.

And of course I am glad if I can write one sentence in 1 line too.

I am glad if I can write like this, and
I am glad if another time I can write right the opposite way.

I am glad if I can write normally

But I am also glad

if I can write
at all - not -
normally

I am glad if
I can write
an evergreen
sentence.

~~am glad if I can cross out sentence, one after the other.~~

I am glad if I can write sentences in the
dark, one after the other. I am glad if I can
write sentences in the dark, one after the other.
I am glad if I can write sentences in the dark, one
after the other. I am glad if I can write sentences in the dark,
one after the other.

after the other I am glad
 I am glad if I can write sentences in the dark, one after the
 other. I am glad if I can write sentences in the
 dark, one after the other. I am glad if I can
 write sentences in the dark, one after the other.

I am glad if I can write sentences in the dark, one after
the other. I am glad if I can write sentences ~~in the~~
one after the other. I am glad if I can write sentences ~~in the~~
~~one after the other.~~ I am glad if I can write sentences ~~in the~~
~~one after the other.~~ I am glad if I can write sentences ~~in the~~
~~one after the other.~~ I am glad if I can write sentences ~~in the~~
~~one after the other.~~ I am glad if I can write sentences ~~in the~~

one after the other. I am glad if I can write sentences in the dark one after the other. I am glad if I can

[illegible]

I AM GLAD IF I CAN WRITE ZEROS ONE AFTER THE OTHER
